Deputy Commissioner's Office,
Kolar District,

No 2399/611 Dated Camp Sreenivaspur 7 January 1894.

To

The Chief Secretary to the
Government of Mysore.

Sir,

With reference to Government Proceedings No: 9542/F.7337-92 dated the 19th Decr/93 directing that the services of the midwife at Kolar should also be utilized in the outlying villages of the Taluk, I have the honor to request that the female Hospital Assistant appointed to the charge of the Dispensary recently sanctioned for women and children at Kolar may be directed to attend free of charge the labor cases in the town and such other patients women and children of course, that may not be able to attend the female Hospital owing to the serious nature of the disease. The Hospital is opened especially for the benifit of the weaker sex and children and until medical aid is rendered in

25

such cases in their own houses the benefit of the Institution would be limited - I would recommend the extension of the concession of free attendance to all patients, women and children, as it would be no easy task to draw the line of distinction between those who are able and those who are not able to pay the Hospital Assistants fees, at least for a year or until such period that the Hospital is freely resorted to by the patients for whose benefit it is opened.

I have the honor to be,

Sir,

Your most Obedient Servant,

E [illegible]

Deputy Commissioner

SURGEON & SANITARY COMMISSIONER WITH THE GOVT. OF MYSORE. OFFICE OF SENIOR
No. 2217
DATE 16/2/94
BANGALORE

To

The Chief Secretary to the
Government of Mysore
Bangalore

Sir

With reference to Proceedings of Government
and order thereon No. 13492-3 Ecn 1 S/Bangalore
E.F. 337-92
13th February 1894 I have the honor to state, as
the head quarters of the Midwife are at Kolar there
where she would probably be the greater part of her
time, I see no object or advantage in relieving her
of the duty, when she happens to be present, of
attending labour cases in the town and handing
them all over to the female Hospital Assistant.

2. On the Contrary I think it would be objectionable
as it is perfectly possible, and even probable,
that many would prefer the services of the native
Midwife and if she is not a native she ought
to be, whom they could accommodate much
more conveniently in their houses than those
of the Hospital Assistant who is a Eurasian,
and there is the further disadvantage that
if the Hospital Assistant had to attend all
labour cases while the Midwife may perhaps
be in her house doing nothing, she (the Hospl
Assistant)

(Hospital Assistant) would probably have in consequence to be absent from her duties of attending to the sick more frequently than would be desirable, as women generally like to have the Midwife with them for some days after delivery.

3.- I am therefore of opinion for these reasons that it would not be advisable to accept the recommendation of the Deputy Commissioner, and that it would be better to let the Midwife work with and under the Hospital Assistant, as is done elsewhere, and let the people call ~~~ whichever they please, and let such one attend on the understanding, as is the case in all other places, that if the midwife is attending on a case which, for any reason may be beyond her capacity to deal with, she shall summon the Hospital Assistant to advise and assist her, and the latter, if she should find herself in difficulties, shall advise the patient and her friends to summon the Assistant Surgeon, or Civil Surgeon as the case may be, and so forth.

4.- These are the general rules laid down by me, and the necessity for observing them is impressed on every Midwife that I have had to do with on her proceeding to her charge, and on every Hospital Assistant, and as they are I think good over they ought be allowed to stand.

5.- Of Course if the midwife should happen

to

attendance crops up here and there so often
that it is calculated or intended to convey the
idea that the Medical Subordinates are unworthy
and avaricious persons from whom it is
necessary to protect the public
13.- My opinion of them as a body is not
that by any means. I consider them a most
worthy and useful Class of Officials, and
less avaricious than any other of the same
standing in the Province, and that their rights,
as recognized and sanctioned by Government,
require some protection from some with whom,
because of their official position we they
dare not fall out.

I have the honor to be

GOVERNMENT OF MYSORE.

LOCAL BOARDS BRANCH—LOCAL FUNDS.

PROCEEDINGS

Dated 28th March 1894

No. 16325-34.
L. F. 217-93.

Laying down rules as regards fees claimable by Midwives and female Hospital Assistants for attending labor cases.

Mysore Govt. C. Press, Bangalore.—10-4-94.—120.

9. Private and non-official persons they do not complain of, but they do of officials, and well placed officials too, in respect of attendance on their families.

10. For obvious reasons they do not ask for their fees in these cases.

11. If they were to do so probably the place would be made too hot for them, and they think it wiser, and probably they are right, to keep quiet. But they nevertheless feel that they are wrongfully deprived of what they might legitimately look upon as a means of adding a little to their very moderate incomes in the shape of small remuneration for their private services.

12. I do not for a moment mean to imply that these remarks have any application to the Deputy Commissioner of Kolar. My object in making them is that this question of gratuitous attendance crops up here and there so often that it is calculated, or intended to convey the idea that the medical subordinates are unworthy and avaricious persons from whom it is necessary to protect the public.

13. My opinion of them as a body is not that by any means. I consider them a most worthy and useful class of officials, and less avaricious than any other of the same standing in the Province, and that their rights, as recognized and sanctioned by Government, require some protection from some, with whom, because of their official position, &c., they dare not fall out.
